WHAT IS BNB|BALL?

BNB|BALL is a multiplayer H2HE (Head2Head Earn) football/soccer game. Players can wager against each other in individual matches, leagues or tournaments and win BNBB or BNB. Each player must stake 10 tokens on our platform to qualify for the leaderboard rewards or participate in our leagues and tournaments.

In development and subject to change

BNB|BALL also has a 25k pad where participants must be staking 10 tokens to participate in FCFS rounds or be staking 25 tokens minimum to secure one of our 100 seats in the premium tier. If any funds remain from the 100 guaranteed allocations, the FCFS occurs. 1 token owned and staked is the requirement for our whitelist.

BNB|BALL will also aim to release our Swap on BSC, where all transaction fees will be used toward our weekly leaderboard.

Along with our swap, we will introduce a staking platform for those coins to access our multiplayer leaderboard and leagues. Those staking pools will be provided in BBNB(our reward token) and the token will be listed on our platform.

VISION OF BNBBALL

Through strategic development and community insights, BNBBALL aims to become the home of Soccer esports players, while simultaneously providing an ecosystem where users can play, socialize and work in the same space.

By bringing together the most significant aspects of blockchain games and developing a user-friendly, competitive, fair, and wholly original game system, a self-sustaining model for BNBBALL has been created.

Our goal is to unite the crypto community with the football industry in a novel and exciting way. we developed this project – BNBBALL, a platform for football enthusiasts to have fun and play a game based on blockchain technology and our native token (\$BNBB).

THE BOOMING GAMES INDUSTRY

It's no secret that the video game industry has experienced phenomenal growth in recent decades. From pixelated graphics to immersive virtual worlds, the evolution of video games has been nothing short of incredible. Let's put it in perspective. In the year 2000, the global video game market was worth \$8 billion, fast forward to 2022 and the industry raked in a whopping \$267 Billion. And the numbers keep climbing, with experts estimating the market value to reach \$404 billion in 2027

It's not just the size of the industry that's grown, the reach and impact of video games has expanded as well. In fact, more than 2.7 billion people worldwide play games on average 1.13 hours per day. That's almost a third of the world's population!

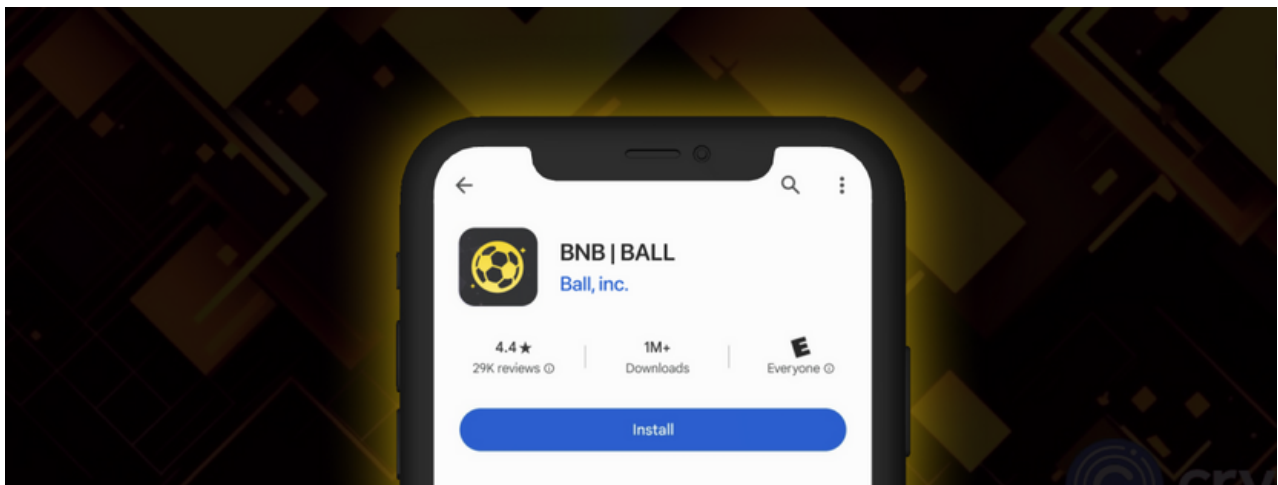

It's clear that the video game industry is not and has never been just a passing fad, but a thriving and lucrative market that's here to stay. And with the advancements in technology and the rise of esports.

GAMEPLAY **EASY AND SIMPLE**

1. Installation/Access

Players can choose to either install the app on their device or play directly via a website.

Upon opening the game, players are prompted to connect their crypto wallet to the game interface. This could be achieved using popular wallet integration solutions like MetaMask or other crypto wallets.

2. Wallet Connection

Players connect their crypto wallet to the game. This step is crucial as it ensures that the in-game assets, rewards, and transactions are linked to their blockchain wallet.

3. Lobby and Setup

Once the wallet is connected, players are directed to a lobby where they can see available opponents or invite friends.

6. Gameplay Mechanics

Navigate spherical in-game characters using arrow keys and spacebar controls. Enjoy dynamic gameplay as the ball bounces off characters' heads, adding strategic depth. Master timing and precision for an engaging and intuitive gaming experience.

7. Crypto Rewards and Transactions

When the game is completed, the winner shall receive a reward equivalent to **1.8 times the amount of tokens** wagered by both participating players. This ensures a payout to the victorious player based on the agreed-upon token wager, creating a rewarding incentive for skillful gameplay.

8. Scoring and Leaderboards

The leaderboard is reserved for the **top 10 users** who have staked tokens on our platform. Those who qualify for the leaderboard will receive BNB rewards at the end of each week

ROADMAP

TOKEN ECONOMICS

RULES

Each IDO will undergo a snapshot at a specific time. To be eligible, wallets must stake a minimum of **1000 tokens**. If any wallets with 1000 tokens or more are not eligible, the spot will be filled by a wallet from the previous snapshot that has staked 1000 tokens or more and still holds that balance for the current IDO.

The launchpad requires a minimum staking of 1000 tokens. This strategic move aims to reduce the circulating supply, fostering the token's growth. Stakers will also enjoy membership privileges and participation in the leaderboard.

STAKING

All users who stake a minimum of 1000 tokens will automatically qualify for the BNB|BALL Leaderboard Rewards. This is a way to reward investors who participate in all of our products. If your wallet is one of the highest earners in the multiplayer game and you have staked 1000 tokens, you'll be eligible for prizes. If you haven't staked the required 1000 tokens, you won't qualify for prizes, and the next user on the board with 1000 tokens staked will be rewarded.

Staking 1000 tokens will also give eligibility for Leagues. Leagues will have prizes and live tables online. Each match will be watched and monitored for the results that are recorded on the league table as an official result.
